# Autumn Leaves

## Instructions for Play

Shuffle the cards and place in a bag or container where players cannot see them. Take turns to select cards. If a leaf is chosen, the player reads the word aloud and selects another card if correct. If a **mulch** card is chosen, play moves to the next player. If a **burn off** card is chosen, the player puts 3 leaf cards back in the bag (paying a fine because this is bad for the environment) and play moves to the next player. If a piece of the **Autumn picture** is chosen, this card is placed face up on the table and play moves to the next player. Each time a picture piece is chosen, it is added to form the puzzle. The

game ends when the picture is completed. The player who has collected the most leaves wins.
