

Name: _____

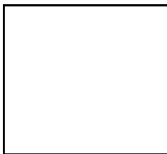

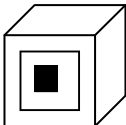

Measurement: Informal Length

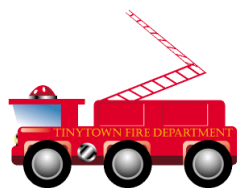

How long are these things?

--	--	--	--	--

feather

		blocks long
---	---	-------------

fire engine

		bottletops long
---	---	-----------------

flag

		icypole sticks long
---	---	---------------------

Instructions: Provide objects to be measured (2 of each thing for a group of 5 or 6 students is recommended), and labelled containers of the measuring units to be used. Other appropriate units may be substituted if these are unavailable—eg toothpicks for coloured sticks. *Use appropriately sized models of each object to be measured, or if these are unavailable, photocopied pictures -carefully sized.
