Jaguar Race

Goals: To recognise numbers from 1 to 20

Use: A die, a different coloured counter for each player, a game board each.

Instructions: Each player starts on the jaguar. Players take it in turns to roll the die and move their counter that many spaces along the track. Players must name the number they land on. The first player to reach 20 is the winner.

Variation: Start at 20 and move backwards towards 1.
