

Sound Surprises

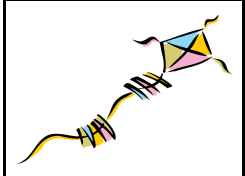

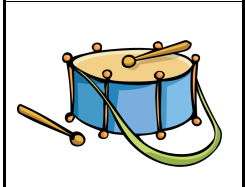

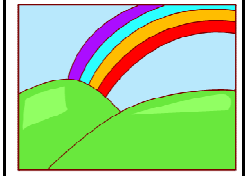

Use: a counter for each player, a die, pencil and paper or counters to score

Instructions: Players place their counter on any space on the game board. In turn, players roll the die and move that many spaces in either direction. Players score 1 point by saying the sound the picture starts with. They can also earn up to four more points by saying up to four other words that start with the same sound (eg. camera, kayak, krill, cartoon). The first player to reach 10 points is the winner.

Variation: Players identify the last sound in the word and four other words that have this last sound.
